

Current status of Melbourne's water supply and use

How much water do we need in our storages?

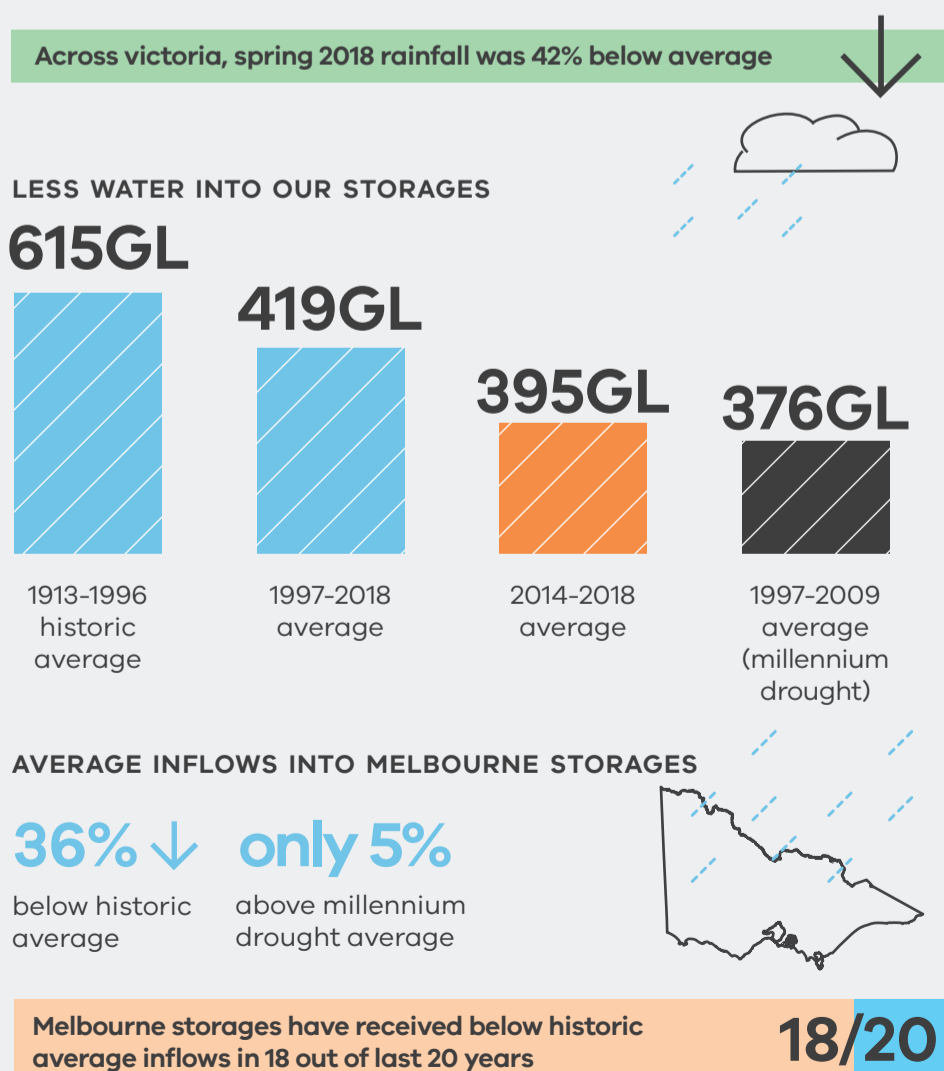

Melbourne storages can drop quickly as they did in 2006 when they fell by about 20 per cent in a single year

IN FEBRUARY 2019 OUR STORAGE LEVELS WERE THE **Lowest since 2011**

The lowest storages have ever reached was 27% in 2009 during the Millennium Drought

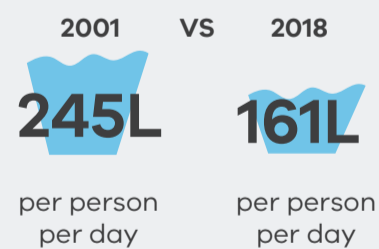

Rainfall and streamflows into our dams

Water use

MELBURNIANS ARE WATER WISE

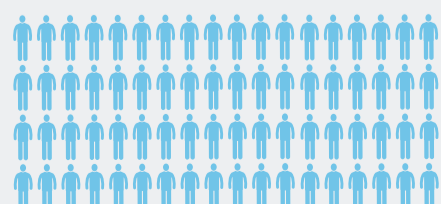

Each person is using less water

TARGET **155**

POPULATION IN MELBOURNE UP

1.4 million
more people since 2001

ANNUAL WATER USE UP

10.7%
over the last 5 years
