

Victorian Climate Initiative Synthesis Report

Findings from the Victorian
Climate Initiative

Environment,
Land, Water
and Planning

2pm Introduction

- Grace Mitchell, DELWP: Acting Chair Victorian Climate Initiative Steering Committee
- Graham Hawke, BOM: Victorian Climate Initiative Steering Committee member

2.10pm Synthesis Report climate science overview

- Harry Hendon, BOM

2.30pm Synthesis Report: hydroclimate projections

- Francis Chiew, CSIRO

2.50pm Water sector application: Gippsland Water case study

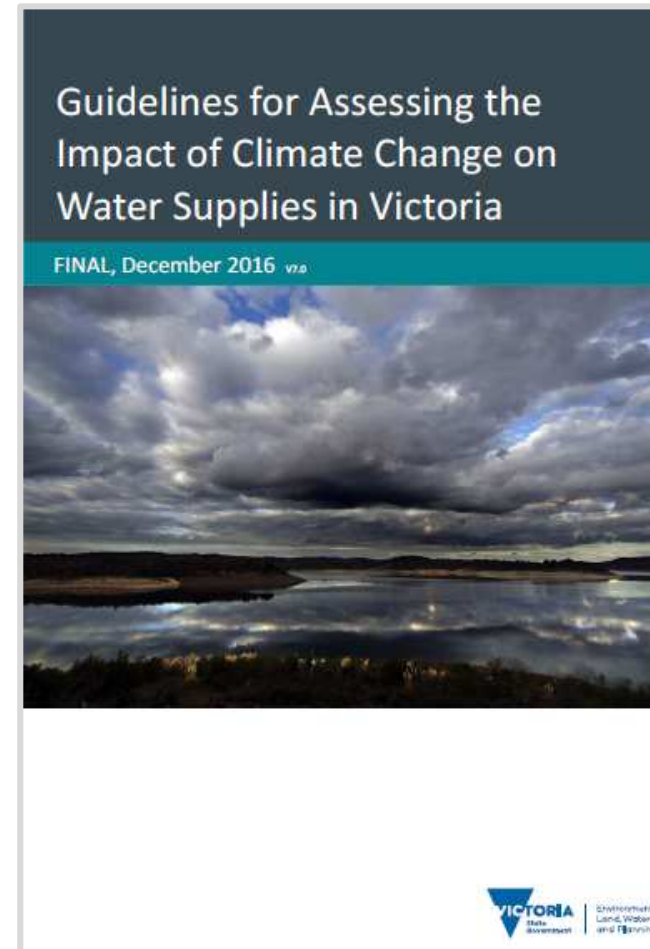

- Jolyon Taylor, Gippsland Water

3pm: Question & Answer session

To improve:

- Understanding of past climate variability and change in Victoria
- Seasonal climate prediction for Victoria
- Understanding of future climate and the associated risks to water resources in Victoria

Value & application

Synthesis report, DELWP guidelines and fact sheet:
